BIG-LED E27 single lamp holder set with ceiling canopy

The BIG-LED E27 lamp holder set was specially designed for the BIG-LED illuminant series. The somewhat rough, technical appearance and the solid textile cable are perfect for creating a modern, industrial ambience at home. The cable length of 2m can be shortened as required.

Can be combined with Casambi.

The Casambi Smart BCU-TED (148575) can be invisibly integrated into the ceiling canopy, allowing the BIG-LEDs to be dimmed with ease.
