EAN CODE

Leakage sensor for 3418v2/34xx/35xx/4500/5000

- Detects whether conductive liquid is present on the floor
- The display / control centre shows the display in % = Example: Approx. 95~100% float is in the water. 50% display = There is still some conductive liquid at the bottom. From 40% the threshold value is preconfigured from green to red.
- Connection: 2x RJ45 I2C on the sensor housing
- incl. 2m cable length to the float which registers the conductivity of the liquid at the bottom

ATTENTION: This is only the electronics suitable sensor cable is still required. (see accessories)

Attributs

Attribut	Valeur
Bauform:	Metallgehäuse
Einsatzorte MSR:	indoor
Kompatibilität Zentrale:	ALL3419;ALL3500;ALL3500PoE;PoE Signallampe;ALL3696;ALL3420;ALL5000;ALL4500;ALL5000v2;ALL3418;ALL5100;ALL3692;
Sensorart:	Leckage;
Poids:	1 Kg

No. d'article: 258443
Numéro de fabricant: ALL4456_o._Schwimmer

Attribut	Valeur
Garantie:	24.00 Mois

Accessoires

No. d'article	Désignation
247892	ALLNET MSR sensor, e.g. for leak detection, cable length 7.5 m + 2 m
247893	ALLNET MSR sensor, e.g. for leak detection, cable length 10 m + 2 m.
247894	ALLNET MSR sensor, e.g. for leak detection, cable length 15 m + 2 m
