

ALLNET ALL3688 / Powermeter att. PM2 optical D0-read head "E"

>>> [Go to the shop article](#)

EAN CODE

D0 sensor for ALL3691/3692/3696 to pick up the D0 signal on modern electricity meters. The D0 signal is usually sent automatically every 2 seconds from the utility's electricity meter in the infrared range. The OKK D0 reading head is fixed on the electricity meters with magnetic ring.

ATTENTION: Works only in combination with an ALLNET power meter with D0 connection, e.g. ALL361/3692/3696 and the corresponding compatible power meter. Which electricity meter is compatible see data sheet.
