

Plusonic Wireless Microphone Kit PS-TDS8 „USB Type C/Lightning/3.5mm jack“ WiFi-Micro *ALLTRAVEL*

Experience lossless Hi-Fi-level sound quality with double-click noise cancellation. Our broad frequency range of 20 Hz to 20 kHz and a sampling rate of up to 48 kHz/24-bit ensure top-tier Hi-Fi sound quality. Effortlessly block unwanted noises with a simple double-click, allowing for natural, crystal-clear recordings.

Performance features:

- **Maximum Flexibility:** Equipped with three connection options (Lightning, USB Type-C, and 3.5mm jack), our microphones seamlessly work with common DSLR cameras, computers, smartphones, iPhones, iPads, and more.
- **Vast Transmission Range:** Utilize the maximum 150-meter range for limitless creativity in livestreaming, blogging, outdoor recordings, podcasting, TikTok, and beyond.
- **Low Latency:** Experience real-time audio transmission without delays.
- **Extended Transmission Time:** Enjoy up to 9.5 hours of continuous transmission, extendable to 30 hours with our convenient charging case.
- **Automatic Noise Cancellation/Noise Cancelling:** Ensure clear recordings even in noisy environments.
- **Real-Time Monitor via LCD Display:** Monitor recording, volume, and audio modes in real-time.
- **Mono/Stereo & 5-Level Gain Control:** Versatile settings for diverse audio requirements.
