

ALLNET 4duino Vibrations Schalter

EAN CODE

ALLNET 4duino Vibrations Schalter Product Model: OKY3222-1
DC 3-5V Vibration Switch Single-Channel Vibration Sensor Module For Arduino
Product Description

1.Model:N/A.

2.Color:Red.

3.Material:FR4.

With signal output instructions.

Single-channel signal output.

With mounting holes for fixed installation.

Switch output circuit board, can be directly the microcontroller IO port.

Working voltage: DC 3-5V.

Usage: teaching experiment demonstration, product development and so on.
